ARNS EXECUTIVE 2008/2009

ARNS President's Message

Here we are again with a special issue of ARNS NOTES.

By now the annual BBQ has come and gone, and we had a blast. Simple fare, great friendship, good music.....what else do we want? Although I know that some of you have done some travelling already, I want to wish everyone a safe and happy summer. Enjoy the outdoors and do the things that you enjoy most. My wife and I will hook onto our RV in early June for an extended trip to eastern Canada, followed by a return to the west via the USA. We have been planning this trip for sometime now, and we are really excited about it.

Your executive will be changing in November as a result of some terms being up for renewal. Chris Hardy has the task of building a slate of candidates for the positions which will need to be filled.

Kym Haq will be leaving the Publications and Information chair. I have served for three years as President, Jerry Dubyk has served three years as Vice President, these positions are open for elections. So.....let's get our election minds "synchronized" and help Chris with some candidates. Being a part of this executive is about as much fun as you can have (with your clothes on). We meet once a month, not including July and August. We work together to plan a spring BBQ as well as the annual fall AGM and we support the over 600 retired NAIT staff membership.

The Association of Retired NAIT Staff is unique in the sense that it is a group of retired people who, regardless of their previous affiliation at NAIT, are part of a great "family" who lend support to one another in many ways. There are not many colleges, universities, or technical schools across the land who can boast a group like ours

Some of our members are well into their 80's and 90's and still enjoy joining together for a social outing at either the spring barbecue and/or the fall AGM dinner in the dining room at NAIT called Ernest's. Some of our members have volunteered many hours during Open House, the annual Cruise fund raiser or Convocation, as well as other events.

As well, there are often retirees on campus doing things like tutoring students in need, or perhaps invigilating exams.

Retirement for many has simply meant a change in direction and they have kept themselves pretty busy.

So enjoy Summernow I gotta' go and pack my bag (s).

Winter In Vegas

Submitted by Guy Blood

I don't smoke, drink, gamble, eat at expensive restaurants, or entertain myself with ladies of the night, so what the hell am I doing in Las Vegas?

Joan and I bought a small condo in Las Vegas last May, and spent the best ever 5 month winter there. We had considered Phoenix, and Palm Springs, but both of those are so hot in the summer, and with so little reason to go, we decided on Vegas. It's a city like most others, but it has an incredible entertainment center just down the street. People go there 12 months a year. The place is always busy and exciting. We didn't go to 'The Strip' very often, but when we did it was very enjoyable. The areas that got our attention were the Lake Mead National Park, to the east, and Red Rock Canyon, to the west of the city, both easy drive distances. We went to one or the other every day during the week. The other attraction for me was the local soaring club. A half hour away, with membership I was able to fly gliders every weekend all winter.

For anyone with money to spare, or invest, Las Vegas has great opportunity. The REDC website shows properties to be auctioned off. I attended one auction of 350 foreclosed properties in December. They were selling typically at a 60% discount from their previous sale value. 1000 more were auctioned off in April, and they still have about 15,000 to sell. If we had any money we'd be buying property.

Looking forward to driving back down in November.

Guy Blood

A Piece of Fame

Submitted by Dan Maloney

My retirement story is probably similar to many other ARNS members: travel and volunteer. Travel I have done. Since retiring five and half years ago (where does the time go???) I have visited relatives in Ireland three times. My mother was from a family of 15 so I have oodles of relatives on the Emerald Isle! Also I have spent most winters in a small town on the Pacific Coast of Mexico. It is a very friendly little town (1 hour north of Manzanillo) with a great climate and many Canadians who spend the winter there. The majority of the Canadians are from Western Canada which contributes to a very "homey" feeling while escaping the winter wonderland of the North!!

Volunteering is something most NAIT employees are most familiar with. Upon moving to Hamilton I knew I would get involved with various community efforts. First came SERTOMA which is an International organization which is dedicated in SERVICE TO MANKIND, thus the acronym SERTOMA. The focus is on helping people with hearing and speech problems. Of course one of the major fundraising activities was Bingos, of which I worked many! Next was the Hamilton Fringe, a far cry from Edmonton's but you have to start somewhere! My role was House Manager for various plays. Hamilton's Fringe is still in its infancy. Moving from culture to fitness and outdoors activity I became a Trail Captain for a section of the Bruce Trail. The Bruce Trail hugs the Niagara Escarpment and reaches from Niagara Falls to Tobermory, 800 kms in total. I walk my 4km section regularly ensuring the trail is clear of fallen trees and picking up garbage left behind by some of the hikers. Tim Horton coffee cups are the most common garbage item. Hiking in a forest setting is peaceful and relaxing and I am very fortunate it is only five minutes from my house.

My most high profile volunteer activity is being on the Board which oversees the Canadian Football Hall of Fame and Museum which is located in Hamilton. The Board is made up of City of Hamilton appointees and Canadian Football League appointees. When I applied to be a member of the Board I had no idea that when the Grey Cup travels to a function it must be accompanied by a Board member. This is true for the 10 month period the Grey Cup is in The Hall of Fame. The two months that the winning team has the Cup there is no Board member accompanying the Cup. This is when all the great stories about various escapades with the Cup occur!!!! Travel with Cup depends who is available from the eleven Board members. In my three years with the Board I have been fortunate enough to travel to Vancouver, Calgary, Regina, Saskatoon, Toronto and Halifax. In addition there have been many visitations to communities in Southern Ontario.

It is a great honour to travel with the Grey Cup as well as very personally rewarding answering questions and telling stories about the Cup. The Cup is magical; people can't believe they are getting so close to the Grey Cup. Of course they are over the moon when they get their picture taken with the Cup. Some of the trivia I share with football fans is that the Cup is 100 years old. It was donated in 1909 but this year's Grey Cup game in Calgary is only the 97th game because there was a three year period during the First World War where there were no games played. One fact that seems to get a big reaction is that Wayne Gretzky has his name on the Grey Cup. He is the only person to have his name on both the Stanley Cup and the Grey Cup. In 1991 Gretzky and John Candy were minority owners of the Toronto Argonauts, consequently they have their names on the Cup as the Argos won the Grey Cup that year.

So far my travels with the Cup have not included Edmonton. If it ever does you can be sure there will be lots of photo opportunities on campus!!

Working at NAIT was a rich and enjoyable experience and I find retirement to be equally so!! I am thankful for both!!!!

In Memoriam

Gene Smith — retired staff member since 1988 — passed away February 16, 2009
Herbert Quoika-Stanka — retired staff member since 1991 — passed away February 28, 2009
Antonia Capra — retired staff member since 1984 — passed away March 7, 2009
George McLaughlin — retired staff member since 1988 — passed away May 13, 2009

We formally apologize to Mr. Edward Collins for the misprint in our last issue that he had passed away. Happily, he is still with us.

Around the World

Submitted by Lynn Clark

Recently, I was selected to participate in a two week volunteer project supported by Rotary International in the Dominican Republic to renovate, refurbish and rebuild four schools in the Puerto Plata and Moca areas.

The project was carried out by 72 grade eleven students from the Oakville, Toronto, Hamilton, Calgary, and Vancouver areas. Over the course of two weeks, these ambitious students scraped, sanded, and repainted four schools on the inside and outside. In addition, they improved the drainage on the school grounds, built playgrounds, baseball diamonds, basketball courts, put new roofs on outdoor banos, poured concrete, spread gravel, built tables, benches, partition walls, hung doors, constructed and painted garbage bins and played extensively with local schoolchildren. The students were supported by 12 wonderful teachers who gave up their spring break to manage the student work crews. Four Rotarians (including myself) were chosen as project site managers who had experience with renovation/building, educators preferably who had worked with young people and who could speak French (un peu) and Spanish (un poquito).

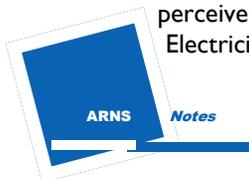

After a four hour trip from Toronto, the group arrived in Puerto Plata and bunked into an all inclusive resort for three days to become acclimatized... little did they know that would be the last hot water until they returned home. The students wore t-shirts outlining their volunteer work and received many cash donations and sports equipment like soccer balls and baseball gloves from Canadians who were vacationing at the resort. Vacationers opened their hearts and wallets to support the volunteer efforts of these students.

In the Puerto Plata area, students spent two days working on a school ground in Munoz, cleaning up a basketball court in downtown Puerto Plata that had been reclaimed from drug gangs, cleared and raked two acres of a field and planted Yucca to provide food for the residents of a Dominican Republic barrio (slum) at Estancia. At the Art Center in Puerto Plata, students picked up garbage and cleaned rooms in the former Ministry of Justice building that had been turned over to the local artists to serve as an art center.

At the local hospital they reclaimed the courtyard that had been a long standing dumping ground for needles, syringes and broken ampoules. The courtyard was raked, gravel spread and walls re-painted and benches installed for patients to use as an outdoor patio.

All attended a Sunday church service at a Haitian bayete (slum) followed by a walkabout through the slum. The church service was complemented by a generator-powered, stereo amplifier of 1000+ watts of rhythmic church music. There is considerable tension between the Dominicans and the Haitians most of whom are illegal immigrants who work cheaply and are perceived as taking jobs from the Dominicans.

Electricity is free, all you have to do is hook up...some danger here though!
Needless to say Occupational Health and Safety inspectors are not around.

Around the World Continued...

Submitted by Lynn Clark

We stayed for the next ten days at a Roman Catholic mission (Monte de Oracion) high on the mountainside at San Victor just outside Moca. Hot water was non-existent, water was available most days and electricity was “variable”. Food was served in a large cafeteria hall and the grounds were patrolled by armed guards in the evening.

The students were able to choose which school they wished to work at from Llenas, Los Cercados, Monte de la Jagua and La Hermita. Each project was quite unique and afforded students opportunities to do manual labor, and many pounded nails and used a hand saw for the first time. What they lacked in skill was compensated for by their enthusiasm. Once off the main highway, travel to the work sites was slow, roads were filled with potholes and the bus could average only about 15 km per hour. Travel is much faster by the DR national symbol, a.k.a. motor bike as riders can navigate around water-filled potholes. On a typical day, students arrived on site at 9 am, by 10 am about 10 locals showed up and pitched in and by 11 am another 10-12 showed up to help out.

Several tours were arranged to break up the workdays and accommodate the intermittent rain. The group toured the National museum in Santiago, visited cigar & cigarette factories and free zones that produced cigars and textiles.

Sunday church in Moca’s Cathedral de Corazon was Rotary day and we were all honored at the church service for our volunteer efforts. Corazon cathedral is one of the most beautiful in the DR. Later in the day, the Rotarians attended a Rotary BBQ which was the 25th anniversary of the local Rotary club. Very unlike Camrose Rotarians, Moca Rotarians all pack pistols which is legal in the DR. Needless to say... Dominicans are responsible for their own security and we never heard of many robberies.

Two particular side trips of note were:

- A visit to meet Dede Mirabel. Dede’s three sisters (Minerva, Patria, and Maria Theresa) were murdered by Trujillo on November 25, 1960 about 6 months before Trujillo himself (el Jefe) was assassinated. I would recommend you watch a movie entitled In the Time of the Butterflies (2001 with Salma Hayak); it is the story of the Mirabel sisters nicknamed La Mariposas (butterflies) who were in the resistance movement against Trujillo. Dede did not join the movement and vowed to raise her sister’s children. Dede (below) is a lively 84 year old patron who has converted the original family farm near Salcedo into a botanical garden as a memorial to her sisters, their husbands and her father.
- A meeting with Pablo Uribe, a wealthy chicken farmer, who was so moved by his visit to the dump in Santiago that he liquidated all his assets and built a school and feeds the squatters living near the dump. He now raises funds to house and feed the squatters so they can ultimately return to their villages. There are over 2000 people that scavenge food and materials from the dump. The dump is about 400 feet high and covers about 500 acres and is rat infested and rife with packs of wild dogs. People are dying daily due to falls, collapsing tunnels in the dump, infections, diseases, etc. Many students had a very difficult time dealing with the living conditions in and around the dump with hundreds of street urchins and abject poverty.

The last day was reserved for four dedication ceremonies; one for each school. Each was very moving... the community... local Rotary President, Rotarians, teachers, officials from the Ministry of Education, parents, grandparents ...all showed up in their finest, hugs and kisses all around, tears in their eyes, they said “gracias nos amigos canadiense”.

Spring Fling BBQ Recap

ARNS BBQ 2009

The weather was cool or rather cold, with threats of snow, but the 100 or so retirees and spouses had a great time sharing stories and catching up with the latest news in their family lives.

The sirloin burgers and bratwursts and fixings were a great hit by everyone. Some highlights of the evening included:

- A power point and video presentation by Dr. Sam Shaw outlining NAIT future growth.
- A plaque and letter presented by Dr. Sam Shaw to the ARNS Executive commemorating ARNS' 20th anniversary (see a copy of the letter on page 8).
- Eric Papsdorf received the Faculty Emeritus Award. This is an honorary title given to a NAIT Faculty member upon retirement and is awarded based on a record of outstanding teaching, applied research and community service.
- Dave Williams, NAIT Development Office, was inducted into the Alberta Sports Hall of Fame - Red Deer, in May.
- Bluegrass Music was provided by Eric Papsdorf and his band of NAIT Staffers.
- Some out-of-town guests included Lucille Harsch from British Columbia and Dan Maloney from Ontario.

Special thanks to the donors of the door prizes and congratulations to all the winners.

It was nice to see many retirees and spouses. A good time was had by all. The next ARNS BBQ will be on May 27, 2010. Hope to see you there.

BBQ Door Prize Winners

Congratulations To: Fred Pewarchuk, Emil Wruk, Mr. Hans (Inge) Weissebourn, Mrs. (Charlie) Littlewood, Frank Calloway, Bob Busse, Brenda Walmsley and Bill Graham

ARNS Wishes To Thank The Following Sponsors For Their Generous Donations

More details to follow in the fall newsletter.**

ARNS Spring Fling BBQ Photos

A Letter From NAIT's President

OFFICE OF THE PRESIDENT AND CEO

May 12, 2009

Mr. Bob Morgan, President
Association of Retired NAIT Staff (ARNS)
c/o Department of Advancement
Suite 214, 10611 Kingsway Avenue
Edmonton, AB T5G 2C8

Dear Bob,

This year marks the 20th Anniversary of the Association of Retired NAIT Staff (ARNS). On the occasion of the Annual "Spring Fling" Old-Fashioned Barbecue, I would like to extend the heartfelt congratulations on achieving this milestone. The growth and success of your organization is a tribute to the outstanding commitment and service provided by the ARNS executive and its membership.

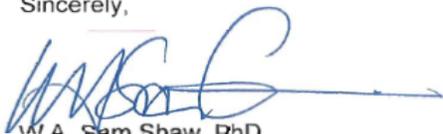

ARNS was formally established in 1989 for the purpose of maintaining social contacts and supporting ongoing connections with the Institute. Since that time, ARNS has built camaraderie within the NAIT family through excellence in communications, with the newsletter "ARNS Notes", and special events like the spring barbecue. In addition, ARNS members have continued to give generously to the Institute by devoting countless volunteer hours in support of the SS Benefit NAIT Cruise, student recruitment events, and fundraising initiatives like the United Way and NAIT Family Campaign.

Indeed, it is time to celebrate your success.

Every day, members of the NAIT team strive to achieve our vision *to be globally valued for student success, applied research and innovation*. Throughout the years, our retired faculty and staff have built a solid foundation of teaching excellence and customer service that NAIT continues to grow upon. Even in retirement, ARNS members demonstrate their commitment to achieving our vision. Through the creation of the ARNS Endowment Fund and scholarships, tutoring students, and mentoring colleagues and staff with your immense professional expertise, ARNS is doing its part to ensure that student aspirations are nurtured and achieved.

Once again, thank you for your commitment to NAIT and congratulations on 20 years of success.

Sincerely,

W.A. Sam Shaw, PhD
President and CEO

NAIT History Project - Summer 2009

Bob Busse has been busy interviewing former NAIT Presidents and other staff members gathering information, anecdotes, and photographs. He has collected valuable and fascinating information. This is part of his findings:

NAIT was the first educational institute to incorporate courtyards into its design. When visitors from other countries came to Canada to examine educational institutions, NAIT was always on their list of the places to visit.

NAIT Staff increased for 68 in 1962 to over 3,000 in 2008

NAIT was "incorporated" October 1960.

NAIT Staff members participated in softball and curling leagues within branches of the provincial government. One member brought in trophies for winning softball and curling competitions with teams from other branches of the provincial government.

Bob Busse would like help in gathering information, interviewing former staff members, or just providing information or anecdotes from your NAIT experience. Your memories are valuable. We would like to share your stories.

Please tell us about any interesting happenings during your career at NAIT
Please send us an e-mail note to: ARNS@nait.ca.
