*This illustration compiles an employment or placement rate of graduates from NAIT's full-time programs. The employment rate is the ratio of graduate survey respondents who indicated that they were employed over the number of graduates who were available for employment. Note that only active programs are depicted in this report.

The information on this report provides "snapshot" data for a variety of indicators which may be of interest and use to students, faculty, administrators, and others. It is important to note that data presented on this report may differ from other data sources due to differences in definition or differences in timing. If you notice a significant discrepancy, please contact the Office of Institutional Research (www.nait.ca/ir) for clarification or correction. If you require an updated report, please email John Mazur at jmazur@nait.ca or call 780.378.5073. (File: Graduate_Survey_MASTER; compiled on 03/30/2016 10:14:58)

*This illustration compiles an employment or placement rate of graduates from NAIT's full-time programs. The employment rate is the ratio of graduate survey respondents who indicated that they were employed over the number of graduates who were available for employment. Note that only active programs are depicted in this report.

The information on this report provides "snapshot" data for a variety of indicators which may be of interest and use to students, faculty, administrators, and others. It is important to note that data presented on this report may differ from other data sources due to differences in definition or differences in timing. If you notice a significant discrepancy, please contact the Office of Institutional Research (www.nait.ca/ir) for clarification or correction. If you require an updated report, please email John Mazur at jmazur@nait.ca or call 780.378.5073. (File: Graduate_Survey_MASTER; compiled on 03/30/2016 10:14:58)
