WELCOME TO NAIT!

NAITfye (first year experience)

Hello and welcome to the NAITfye Student Services Handbook. This handbook will be a great reference throughout your first year, providing information on all of the services available to you as a NAIT student. Our office has also produced a video available on our website that provides additional information on the services represented in this handbook.

NAITfye is an initiative developed to help students transition to NAIT. Our goals are for first-year students to:

- become confident in their abilities
- make connections to NAIT through groups, peers and staff
- feel supported personally and academically, and feel comfortable asking for help
- be able to balance academic and social life, and remain motivated to complete their program
- and most importantly, enjoy school here at NAIT!

NAITfye offers a series of free workshops throughout the first year along with welcome and orientation events. Developed to help you be successful in your program, these workshops focus on a variety of study skills topics. Refer to the NAITfye website or contact us for information on upcoming sessions that may interest you.

FINANCIAL AID

The process of applying for financial aid can be confusing, but we have made it simpler by providing you with a “one-stop shop” for information and applications. Financial Aid specialists are available to meet with you to discuss your funding options in their Main Campus office in the South Lobby:

- Monday–Friday, 9:00am–3:30pm

Financial aid consists of government student loans, grants, bursaries and scholarships. Student loans, grants, and bursaries are based on financial need. The NAIT Financial Aid Office handles all government-funded, needs-based funding. (For information on scholarships and awards, please see Student Awards, page 12).

At NAIT, needs-based funding is categorized into two different types:

1. Post-secondary funding through Alberta Advanced Education and out-of-province post-secondary funding agencies. This type of funding is available for students in designated one-year certificate, two-year diploma, and degree programs. You may apply for funding for the upcoming academic year in June. You need not be formally accepted into a post-secondary program. However, you will receive money only after you are enrolled in the program.

Alberta students whose funding applications are approved before the tuition deadline do not have to honour the tuition deadline. NAIT will request tuition fees for the upcoming term from their student loans. They will have to follow the instructions provided with their student loan certificate. Upon requesting tuition and mandatory fees, NAIT will flag student accounts with a positive indicator which allows students to perform the “Confirmation of Attendance” online via the NAIT Student Portal. Out-of-province students who are using their student loans to pay tuition and mandatory fees will have to provide a proof of funding approval to the financial aid office, before they can perform the “Confirmation of Attendance”.

2. Alberta Works Skills Investment funding through Alberta Employment and Immigration. This type of grant funding is available for Upgrading, English as Second Language, and designated one-year certificate programs only. Once you are accepted into a NAIT program, come to our office where our staff will screen you for eligibility and give you more information on the application process. We recommend that students start the grant funding process three or four months before the start date of their program.

PARKING SERVICES

NAIT Parking Services maintains the Institute's parking facilities and endeavors to provide as many parking spaces and services for staff, student, and visitor use as possible. The number of students requiring parking far exceeds the parking capacity at NAIT. Staff and students are encouraged to use carpools and public transportation.

Daytime permit parking

If alternate transportation cannot be arranged, we advise students to purchase a permit for parking. Permit parking is available on a first-come, first-served basis by application only. There is no deadline for placing your application for student parking; however, it is recommended to apply as early as possible. Registration dates vary each year; therefore, it is best to contact Parking Services for the most recent information to guarantee a permit. Parking applications may be obtained from Parking Services (Room O112) or online. The application must be faxed or delivered in person for approval. Payment is due for the full academic year upon approval of the parking application.

Daily parking

Limited daily parking is available for those who require parking on a short-term basis. These lots are available on a first-come, first-served basis. Payment for these lots is made at the available pay-and-display machines. Tickets must be visible date side up on the dash of the vehicle. For locations, see main campus map (daily parking) and check website for current rates.

Bylaw enforcement

Due to the demand for parking space on campus, it is necessary to have a significant level of parking enforcement in order to protect the interests of paying permit holders. Vehicles illegally parked on NAIT property may be tagged and/or towed at the owner's expense.

Please visit our website for more information.
