

Bio for Mike Nichols

Mike Nichols is the Global RFID Systems Director for Intermec Technologies. Mike has been working in the automatic identification and data capture industry since 1976. He has served in various maintenance, systems design, software development, sales support and management roles.

Mike has been working with radio frequency technologies since 1973 including radar, narrowband data communications, spread spectrum communications and now RFID. The bulk of his career has been spent translating technical information for non-technical audiences and helping companies utilize technology to fill business needs.
