

Library Research Tips

Why Use Library Databases?

- It's essential to consult reliable resources for course assignments. Resources in library databases are scholarly, reliable and current.
- Databases contain quality information from journals, magazines, ebooks, and newspapers.
- Information found in databases spans a number of years and covers a wide range of subject matter.
- There are many ways to search for and retrieve information in the databases. Search by keyword, subject, author, title, publication title, etc.
- Many articles are available in full text.
- There are no advertisements or annoying pop-ups.
- Access to databases is a student benefit at NAIT. Get your money's worth!
- Library databases are accessible 24/7 through the library website, on or off campus.
- Help is available! Don't spend hours searching on your own. Take advantage of the assistance offered by the library to help you find the resources you need.
